

Campaign Update - April 30, 2019

COMBAT CLIMATE CHANGE WITH CPA

Affordable Housing | Open Space | Recreation | Historic Sites | Climate Change | Food Systems

Save CPA

The Community Preservation Act (CPA) helps cities and towns preserve open space and historic sites, create affordable housing, and develop outdoor recreational facilities. CPA allows communities to invest in local projects and helps both state and local economies by creating construction jobs and driving tourism.

Local CPA Projects Boost Climate Change Initiatives Across Massachusetts

Absorb Carbon

Save Energy & Reduce Greenhouse Gases

Protect Against Flooding & Rising Sea Levels

11 Ways to Combat Climate Change with CPA

Absorb Carbon

1

Protect open space

2
